FIVE THOUSAND

Many of them are singular and ostensible cases, and all of them obstinate and unmanageable, having withstood the effects of a variety of remedies for a long time The columns of a newspaper will not allow a statement of cases in detail but circulars may be had of the Agents containing the particulars of some of them Suffice it here to say, that they are *not made up cases*, nor testimonials manufactured for the occasion, but from persons *known* for respectability and integrity, and have voluntarily given their testimony for the benefit of the public Among the cures, are severe and obstinate cases of DYSPEPSIA

CONCENTRATED

Sherry Wine Bitters.

THE Proprietor of this Medicine offers to the public the result of an extensive practice and a thorough investigation of the laws which govern the human system.

It cannot be denied by those who have become acquainted with the singular virtues of these Bitters, that they possess a pre-eminence over all others now in use, for the diseases which they profess to cure

It is a well known fact, that most diseases arise from a derangement of the Stomach and Bowels, in youthful adult and declining life

The extensive sympathies which subsist between these and every other part of the living body are the foundation of nervous diseases of all kinds Irregular Appetite, Langour Drowsiness Wandering Pains, Headache Lowness of Spirits &c

And these in their turn give birth to Dyspepsia, Palpitation of the Heart, Shortness of Breath, Jaundice Piles, Fevers, Inflammatory Humors Coughs and a host of diseases which embitter life and poison all sources of enjoyment

The distinguished character of these Bitters is most striking, their operation being more or less powerful according to the violence of the disease When used in appropriate quantity, in cases of slight derangement of the Stomache and Bowels caused by costiveness or a slight bilious difficulty and the like whose nature needs assistance to prevent more serious consequences, they will be scarcely felt

On the contrary, in obstinate cases they frequently operate more powerfully, causing two or three evacuations daily, until the circulating fluid becomes purified, This accomplished they act on the system in connection with our food, each receiving mutual assistance until the constitution is restored to a state of health and renewed vigor

For sale wholesale and retail at the Doctor's Office, 10 Hanover street Boston and by Agents, Merchants, Druggists and Apothecaries, in every town throughout the New England States Price 75 cts a bottle, 50 cts a paper

They are also exceedingly efficacious in restoring constitutions broken down by sedentary employments and have been extensively used by Clergymen Editors, Lawyers, Clerks Seamstresses and numerous others whose health had been injured by confinement and close application, with the happiest results

They restore the action of the stomach, increase the quantity of the blood and impart to the man and emaciated system of the invalid the vigor and glow of true health

These Bitters are warranted to be a purely Vegetable compound—and mark this, ☞ they can never do the least injury in any case whatever ☜

They are kept by many persons as a FAMILY MEDICINE, and have been given to the *youngest children*, on account of the mildness of their operation with excellent effects

Among the numerous remedies which stand reputable on the basis of an ancient name are none perhaps which have acquired so great celebrity, and extensive use in so short a time as this valuable article —They have gained their high reputation, alone by their good works! Those who once try them always use them again They are grateful to the stomach,—they improve the functions of secretion nutrition and circulation They restore digestion and appetite and create a natural warmth inwardly, which glows through the whole system, giving it greater vivality and animation The experience of thousands attest to their good effects After using them for a short time the hitherto wretched invalid finds that all disagreeable and unhealthy humors have to taken his system His digestive organs perform their proper functions, his blood regains its wonted purity the oppressive sense of weakness and pain departs, and his body becomes endowed with renewed strength and vigor —while the mind resumes its original vivacity and clearness Such are the results produced by Halsey's Sugar coated Pills the mildest yet most effectual preparation of the class in use

In BILIOUS complaints Costiveness, Indigestion, Dyspepsia, and all other disorders of the stomach they produce the most happy results For Sores, Boils Saltrheum, Tetter, Erysipelas, Eruptions of the Skin, Scrofulous complaints and many other like diseases arising from IMPURE BLOOD, they have become highly celebrated Hundreds of certificates have been received from individuals who after having taken them for a few weeks (according to the directions which accompany the box) were cured of the most afflicting cases of *scrofulous affections* They give *Good Blood for Bad* (bottle of the boasted Sarsaparilla, obtain little of the true virtues of that valuable plant and are less effectual than one box of the extraordinary Pills In Colds Coughs, Influenza, Sore Throat, Headache Giddiness &c, they are recommended with entire confidence, the relief in these cases is quick and permanent. For Fever and Ague, Fevers Asthma, Piles Loss of Appetite, Dropsy, Jaundice Worms, Looseness General Debility, and many of the various other diseases to which the human system is liable, they have proved an infallible remedy Their action on the bowels is of the mildest character, even *over doses* never cause griping or unpleasantness yet they are searching and efficient It is impossible by words, to give an adequate idea of the great and good effects these pills produce and their superiority over every other remedy of a similar class, a trial only will explain the wide difference The unhappy invalid after having *tested* but a *single box* of them will with joy for the unexampled change wrought in his health, bear testimony to their uncommon virtues

N B The *coating* of *sugar* adds nothing to the great virtues of the Magic Life Pills, it is their uncommon powers in promoting health, on which all their merits stand, notwithstanding this they are the original sugar coated pills The proprietor made this valuable improvement to preserve their curative virtues entire as well as to render them pleasant to the taste, yet individuals of no integrity have counterfeited other pills, coated them, and through the base and silly pretension to a patent are distributing them about the country, deceiving the public by disposing of them unjustly through the already acquired reputation and popularity of the genuine *Halsey's Sugar-coated Pills* In order to get the true and original sugar coated pills, see that the engraved signature (G W Halsey) is on the label of each box, and buy only of advertised agents

☞The political history of our own country for many years past, says a bold and emphatic Cor of the Boston Whig, shows to a fearful extent, the degeneracy of that high minded spirit which distinguished the first settlers and first founders of our government For after due allowance for the progress of intelligence, what has become of that heroic struggle for principle, that readiness to do all, to suffer all, for a true and noble purpose, which so distinguished the past over the present? Who is ready, or for fort, and life itself for principle? Though it may have been a mistaken one, what is the struggle for now except money, money, and a little more money, political power even is struggled for on account of the spoils of office or the spoils of partial legislation, drunkards, and cutthroats, have usurped the places once held by good men and true It cannot be that all this is to set forever It cannot be that a slave power of three hundred thousand is for ever to govern or misgovern twenty five millions of freemen It cannot be that so magnificent and beautiful country as this, so long the asylum of the poor and oppressed of all other nations, is to become a prison house or a slave market—and while abroad they are advancing in the paths of freedom and truth, that we are to retrograde

☞Our whole-hearted friend Elihu Burritt, says in his last letter from England that he had been exceedingly busy for ten days, working night and day with his arms up to the elbows in Indian meal, instructing the natives in the mysteries of "Corn Pixings With the assistance of the good women of the house, he brought out a capital edition of puddings and johnny-cakes A great many of the poorest class of the people there are determined they will not eat it, especially those confined in the work houses but when they find that it is used as an article of luxury on the tables of the rich, it will remove their squeamishness They have got the idea fixed in their minds, which all the obstinacy of ignorance, that corn meal in its best estate is mere swine's food.'

Mr Burritt has resolved to make it a condition upon which only he will consent to be any man's guest, that his wife shall serve up a johnny-cake for breakfast or an Indian pudding for dinner He had been invited to a tea party where about thirty persons were to be present, and accepted the invitation with the johnny-cake clause, which was readily agreed to by all parties So the virtues of corn meal will be tested by some of the best livers in Birmingham

☞A friend has handed us a copy of the Van Buren, Arkansas Intelligencer, from which we copy the following intelligence of the movement of troops —'A' Company, 1st Regiment Dragoons, commanded by Lieut James Henry Carlton, and 'D Company, 1st Dragoons, commanded by Lieut J W Gardiner, have recently arrived at Fort Gibson The former company from Fort Scott, Mo the latter from Fort Wayne Lieuts N H Whitlesey and N C Givens are attached to them

It is said that these two companies, together with company 'E,' 1st Dragoons, commanded by Capt Steen—and having as Subalterns Lieuts Daniel H Rucker and Abra Buford, are to hold themselves in readiness to join Gen Taylor in Texas They will probably commence their march in a few days, (from the 18th ult)

☞Van Amburgh's Caravan display will enter the city for exhibition this day The spectacle will be well worth witnessing. The exhibition of animals is not so large as has sometimes been about the country, but we understand the collection is a new and an interesting one

The End of the World

An old man accosted us a day or two since with evident astonishment and grief, that we should have been so thoughtless, or so wicked as to have commended the great picture of the End of the World, now on exhibition at the City Hall 'I should not wonder' said he, with solemn earnestness, 'if God should come down in judgment upon this city, and destroy it for this great sin'

'But, dear sir,' we replied, 'do you think it any harm for a minister of the gospel to tell as plainly as possible to his people how an atheist will feel and appear when he has a clear view of the realities of eternity'

'Oh, no'

'Do you see any harm in the worldling and miser being reminded, in the most pointed manner, of their feelings in reference to the close of life, and the realities of the spiritual world'

'Certainly not

'You would then have all classes furnished with the best means of judging of the emotions when they approach the end of life, and look out upon an endless eternity'

'Oh, certainly, certainly, sir

'Well, the' painting you think is so wicked gives the Painter a ideal of the emotions and feelings, and conduct and appearance of several classes in reference to the end of the world You may not agree with him, as perhaps you might not with the written or oral description of some ministers, but his ideal, such as it is you get very forcibly and beautifully expressed on canvass, by rich and elaborate and elegant painting'

'Is that it, well, I've been misinformed regarding it, and will myself go and visit it'

We commend the conclusion of the veteran [illegible] to 'go and see it'

☞The Washington correspondent of the New York Tribune states that 'the loco party are dreadfully troubled about the quantity of 'Democratic measures passed by this Congress 'Democracy in the mouths of such men as are now in power, was only meant to humbug the people, not to embarrass the Government

Free Trade bills, Sub Treasury acts, Treasury Note bills, War measures, Volunteer acts, and all the other brood of the Baltimore eccalleobion, were never intended for any practical purpose except to deceive the people and elect 'Young Hickory The mistake the party are now making lies in trying to carry them beyond their original design

I understand that some of the men who have to see that these measures are put in practice declare that it is impossible for them all to work together It is said that the Sub Treasury bill will almost stop the wheels of Government if it becomes a law'

Nor is this all, for on the re assembling of Congress, if we do not greatly misjudge, a wide defection will be manifest even among the loco representatives from the free states who begin to see that southern slavery has a more potent influence in the administration of the country than they can swallow, even after this influence is christened 'democratic'

A correspondent of the Boston Daily Whig gives a capital suggestion of practical importance in stating that, 'the Whig press has been accustomed to act as though it thought that when a thing had once been stated it was enough Not so with their opponents—let a wrong be committed in the Whig party, and the Democratic press, from one end of the country to the other, will teem with it until it would seem there never would be an end of it, and this course has not been without its effects

Let the Whigs learn wisdom by past experience Let the actions of the Democratic Slave power party be felt, and may we never weary in their repetition Speak out Whigs and the people will hear God prosper the right'

Potato Blight.

We hear that some fields show symptoms of the potato blight But there is a political blight coming over them, worse than any natural blight we have or can experience The tariff of 1842 protected fully the Maine farmers against the influx of Nova Scotia and New Brunswick potatoes, by fixing a specific duty of ten cents a bushel on them, equal to at least 75 per cent in ordinary years, when the quantity raised is equal to the demand. The new tariff gives but 30 per cent *ad valorem*, i e on the cost at place of shipment This will not, in ordinary years, amount to more than 2 to 3 cents per bushel — The consequence must be, that the foreign potatos will monopolize the markets The Potato blight will prove more disastrous in the long run, than any other to our potato fields

☞A large number of hands engaged in the iron works at Alleghany, Penn, turned out in procession on the 3d inst., and burned Vice President Dallas in effigy on account of his recent vote on the new Tariff bill

☞The Eastern Argus is day by day making 'merry over the disasters and blight which the free trade and currency measures of the loco party will bring upon the country There is an unaccountable malignity in the course of the Argus and other locofoco papers who can rejoice in the prostrat of the industrial energies of the free States being cut down by foreign competition, and of the mechanics of many handicrafts driven in despair from their shops, by the introduction of foreign wares and fabrics, and of thousands of persons being distressed and ruined on account of the necessary changes in the policy of the government

Will the Argus just have the goodness to explain to its party, the benefit resulting to the laboring mechanic and farmer by a general reduction in the price of their labor and all they have to sell, while the value of the debts they owe remain at their present rates There are many mechanics and many farmers who are yet somewhat in debt for their farms and their houses A reduction of the value of all they possess is equivalent to raising the amount of their indebtedness Is this a blessing to them?—Is this not rather the system of making the rich richer? Let the laboring men ponder upon these things

☞The Sabbath School of the Unitarian Society will make an excursion to Castine this day, at ten o clock or immediately after the arrival of the Steamer Governor

We learn that an invitation has been extended to the Sabbath School of the New Jerusalem Association to join them on this pleasure excursion This act of christian kindness and liberality cannot but be highly grateful to the New Church people The idea of the universal brotherhood of man is becoming more and more practically acknowledged

A New Planet.

The Paris correspondent of the Boston Atlas states that at a sitting of the French Academy of Sciences, on the 4th of June, an extraordinary paper was read by M Leverrier, the object of which was to prove the existence in our solar system of a large planet which nobody has yet seen, but the orbit of which M Leverrier has calculated, and which, he says, may be seen on the 1st of January, next year

☞Senator Semple, of Illinois, who ran away from the Tariff, and was taken out of the railroad cars and carried back to vote, by order Ritchie and others, is to be paid, it is said, by being appointed Governor of Oregon

☞The Boston Atlas has been authorized to state that a full and satisfactory adjustment has been made, between the Receivers of the Manufacturers' and Mechanics Bank, of Nantucket, and Mr Barker Burnell, of all matters in relation to his connection with that institution

The Salem Register states that Jonathan D Pope, who was found dead in a flatboat at Iberville, La was a son of the late Joshua Pope, of Salem, and was formerly a clerk in the house of Richard Gardner Esq and in the Essex Bank Salem He has been a resident of the south and southwest for several years

George M. Dallas.

In Penn ylvania

Extract of his speech delivered at the door of his house, to a Locofoco procession, on the evening after the Presidential election

"Gentlemen—The Tariff of 42 is a Democratic measure it was passed by the Democrats and it will be safe in the hands of James K [illegible]

In Washington

Extract from a speech delivered before the Senate, on the 25th of July, 1846, previous to giving the casting vote to *destroy* the Tariff of 42 —

"The responsibility is great, and I feel it deeply, but whatever may be the consequences, it must be met

Mr Polk.

Now that this gentleman has shown his colors completely, now that there can be no longer a shadow of a doubt what species of policy he is determined to carry out, it may be as well to place on record the following table

Voters in the United States

In 13 Free States	1,899 745
In 13 Slaveholding States	841,975
Differences between the two, being the excess of voters in the 13 Free States,	1,057,770

Proportion between the two about 9 to 4

Yet the President is a slaveholder—three out of six of his Cabinet, five out of nine Judges of the Supreme Court, every foreign Minister of the first grade, two out of three Major Generals Army, Navy and civil list, all in the same proportion

The Yellow Pæony.—(Pæony willmannia.)

"A more remarkable acquisition than a yellow Pæony, not a straw colored species, (which is only a spoiled white,) but a true yellow flowered plant does not often occur All that we know for certain of its history is that it was received in October, 1842, in the garden of the Horticultural Society from M N de Hartwiss, the director of the Nitika garden in Crimea, that it was just mentioned in the 'London Journal of Botany for April, 1842, by Dr Fischer of St Petersburg, who in a letter to Sir William Hooker, makes the following statement 'Mr Hartwiss has received many interesting plants from Abcharia, sent by Count M Woronzoff 'Among them he has found a yellow flowered Pæony *Epimedium pinnatum*, and *Pinus nordmanniana*, the latter an' Abies, said to be a beautiful tree'

We understand that 25 guineas was demanded for a single plant of it in one of the great continental nurseries The species has much the appearance of *Paonia cretica*, is quite hardy, and grows where any Pæony will grow, and flowers in May At present we believe that plant in the garden of the Horticultural Society, is unique in this country

[Botanical Register

Our neighbor of the Whig has no need of pardon for the very pleasant notice he takes of an event which, noted or unnoted, has so much to do with the happiness and responsibility of life The 'mode of it was as pleasing to us as to our neighbor Sacred songs and prayers should mingle with the congratulation of such an occasion, and what place more fitting that consumation, than where the christian weekly mingles with fellow christians in these songs and prayers' If it be not the place of his chief delights, of his brightest hopes, and crowning joys, he has never known delight, or hope or joy —Gazette

Repeal and Restoration.

REPEAL OF THE TARIFF OF 1846—RESTORATION OF THE TARIFF OF 1842—These are the cries that are now ringing through this wide country They will be the watch-words upon which every popular election—from this to the time when that great object is effected—will be conducted The people are, thoroughly imbued with the impolicy of the great and embarrassing change which has been made in the financial affairs of the country They will only wait their time, to make these Loco Foco rulers tremble at the retribution which is to follow their evil deeds If there is time and opportunity to give the popular feeling full expression this autumn, it is not unlikely that the very party demagogues who passed this law will sneak behind a repeal of it, at the next session, in order to attempt to save their defeat in the ensuing Presidential campaign They will probably, repeal the law themselves If they are cunning, they will assuredly do it—as it is the only chance they will have, to save their party from a sure, signal and overwhelming defeat It is more than likely that this Tariff bill will not be in actual operation ten days—and that it will be destroyed by the very hands that contrived it We hope it will be so—for we had rather run the hazard of a defeat of our party, in 1848, than to be sure of success with this Tariff over our heads, if that success is to be purchased by the distress and embarrassment which will result from that measure We love our country better than we love any party — We ardently desire to see her interests flourish, and her people happy, let her government fall into whose hands it may

In order to ensure a speedy Repeal of this destructive foreign measure, the People must be wide awake—and prompt, on every occasion that offers, to express, by their words and their deeds, their opinions of this odious law All the fall elections should turn upon this point — The ballot box is a weapon which must not be neglected It is in the hands of the People — It is the only one with the political villians, who have contrived these destructive schemes against the interests and the business of the people, can ever be made to feel The second tells tremble before the majesty of the people — It is wonderful with what levity and thoughtlessness the people sometimes use the only power they possess to reach those who are plotting ruin to the multitude, and prostituting the Government to the very worst of purposes

THE BALLOT BOX—THE BALLOT BOX—Let the people set this Engine in full operation, this fall, and the Loco Focos will fly to all Repeal of their own wicked measures—Tariff, Sub Treasury, and all

REPEAL and RESTORATION—These are the words Pass them round Let them be heard on every hill, every plain, every shore, and in every valley throughout our land The guilty will tremble, wherever they are uttered — Sound them abroad—REPEAL and RESTORATION —Boston Atlas

The Gazette says, we are permitted to make the following extracts from a letter received by Rev Prof Shepard from Rev Mr Pomroy, dated

London, July 14, 1846

'I left Constantinople on the 11th of June, and was just one month on my way to London I came by way of Syra, round the cape Matapan by Corfu to Trieste From Trieste I crossed to Venice, the most original city in the world, thence to Verona, Milan, over St Gothard by the side of snow drifts 30 feet deep, down to Lucerne, that sweet, beautiful Lake, and so on to Basle, where I made the acquaintance of Dr Hoffman, who is at the head of the Missionary Seminary in that city—a noble man From Basle I came to Strasburg, then to Heidelburg, Worms where Luther appeared before the Diet of 1521, with Charles V in the Chair I went into the pulpit of an old church where he preached, and saw the tree under which he rested just before reaching the city From Worms I came to Bonn, and thence to Cologne, Aix la Chapelle, where Charlemagne was born and was [illegible] of Louvaine, Ghent, Bruges to Ostend, from whence I took a steamer direct to London Germany is a beautiful country, and enjoys a great amount of social happiness To say that the passage of the Alps is magnificent, is to say nothing It is terrific, *awful* I felt *relieved* when we reached the valleys on this side

At Constantinople I met the brethren of the Turkey Mission at their annual meeting Sixteen Missionaries were present The meetings were held for the most part at the house of Bro Hamlin in Bebek The great topic was the organization of churches They went into committee of the whole and put me in the chair, as being the only one among them who had ever been a pastor

* * * * *

Seven churches, said Bro Goodell to me, will be immediately organized. The last item of intelligence from Oorooomiah was, that a number of recent converts was not less than 1200 of whom were Nestorian priests, and the work still advancing

There is not a nobler band of Missionaries on earth than those of the American Board in the Turkish empire

The Boston Post is engaged in making an effort to prove that the people ought to be satisfied with the tariff Law which the Loco Focos in Congress have contrived, to destroy American capital and labor, and to benefit foreign capital and labor It tells its readers that the law is a good law—that it should be quietly submitted to, and that they ought not to think of any thing like a panic, but be contented with very small profits Why does not the Post come out honestly, at once, and speak boldly the very truth that is deducible from its shallow arguments?—Why does it not tell the Coal and Iron miners, the Sugar planters, the Wool and Hemp growers, and all the manufacturers of our country, that they must be content to *divide* their profits with the producers and manufacturers of foreign lands? Why does not the Post say, openly, to the American laborer, 'that instead of his getting his dollar, dollar and a half, or two dollars a day—he must be content to be reduced to the level of the half starved pauper laborer of Europe? This is the true meaning of its arguments, if they have any meaning, and the people will so understand them —Atlas

Our English Market for Grain.

Extract of a letter dated

London July 17, 1846

"I hope the British Corn Law will do some good to our country, (the United States,) but nothing in comparison with what many 'Statesmen' and speculators believe What do you think of the finest foreign Wheat in Market having been grown in Australia for about 37½ cents the bushel? England does not look to the United States for her breadstuffs, nor will she ever do so I hope our people will not be caught with such bait, and adopt the Free Trade system'

The idea that Wheat was sold on the Continent of Europe in March last at 30 to 40 cents per bushel, was laughed out of court by Mr Bloomfield and the editor of the Evening Post But now we have authority for saying that it was sold for 25 cents per bushel

☞The Editor of the Gazette thus pleasantly congratulates us on our new location

"We congratulate our neighbors of the Whig on their installment in neat, capacious and delightful quarters in the New Market House The printer is not made for pent up and rugged quarters, though such quarters are too often allotted to him by a stinted patronage, and illiberal paymasters We trust that the geniality of the place, and a freer flow of liberty principles now wafting through the atmosphere breathed by our neighbors, may conduce to that social and fraternal geniality of humanity, which adds so much to editorial equanimity, and lightens the burdens of a toilsome life — The dexter hand is warmer than the sinister, and its exercise much more exhilarating.

In the House—

The House insisted on its vote passing resolve in favor of the revolutionary officers and soldiers

Bill for the removal of the seat of government to Portland, was received from the Senate passed to be engrossed Read twice to morrow morning assigned

Bill to incorporate Lake Felos and Webster Pond Dam and Sluiceway Company was taken up, slightly amended and passed to be engrossed

Resolve authorizing the Treasurer to receive certain moneys under the Treaty of Washington (the moneys allowed in consequence of false vouchers) came up on its final passage

Passed to be engrossed—bills to incorporate Nicketas Dam Company—Heron Lake Dam Company—Grand Lake Dam Company

Friday, Aug 7

In the Senate—

Passed to be enacted—bills in relation to removal of Insane State Paupers—authorizing school districts to borrow money—increasing the capital stock of the Springvale Manufacturing the Dover and Foxcroft Fire Company

The Committee of conference on the resolve in favor of Wm Emerson, reported disagreement and advised the adherence of the Senate to its former vote

The report of the conferees was indefinitely postponed The resolve then passed to be engrossed in concurrence

In the House

On motion of Mr Beedle, the Committee on Pay Roll was instructed to make up the pay of members to and including Monday next

On motion of Mr Getchell, Ordered, That the same amount be allowed to the Clerk for making up the Journals and filing papers, as was allowed last year

On motion of Mr Levensaler, Ordered, That a committee of three members of the House be appointed to visit the State Prison in the recess, examine the books and accounts, and the whole management of the prison, with power to examine witnesses, and to have access to all the books of the prison and shall make report to the next Legislature, recommending such alterations in the management of the prison as they may find necessary Messrs Levensaler, Getchell and Hersey were appointed the committee

Bill to incorporate Penobscot Log Driving Company was taken up, amended and passed to be engrossed

Mr Hill at Webster called up the motion to reconsider the vote, indefinitely postponing resolve authorizing the Land Agent to make deductions on certain timber sold by the State — The motion was opposed by Mr Chadwick, Prince, and Levensaler, and advocated by Messrs Paine and Allen In favor of the resolve it was stated that the timber on the St John river was sold to average 20 inches in size and the most of the timber fell short, and the purchasers of stumpage were losers On the other hand it was said that the purchasers were to take the timber at 24 inches, and to run their own risk—if it averaged over 20 inches, it was to be their gain—if under, their loss — The House refused to reconsider, 22 to 47

Finally passed—Bill to incorporate Telos Canal Co —to incorporate Lake Felos and Webster Pond Dam and Sluiceway Co —to incorporate Lake Heron Dam Co —to incorporate Nicketas Dam Co

Resolve appropriating $300 for schools in the settlements on the St John river, provided the inhabitants raise and expend an equal amount for the same purpose, was read twice

During our visit to the Massachusetts State Prison some time since the Warden spoke with deep interest of a Prisoner whose talents as a Poet had excited much attention We find the following lines from his pen in 'The Prisoner's Friend Our reader will agree with us in pronouncing them very beautiful [Ed Tr

The Prisoner's address to his Mother.

I've wandered far from thee mother,
Far from our happy home
Ev'n from the land that gave me birth,
In other climes to roam
And I have since then, has rolled his years,
And marked them on my brow—
Yet still I've often thought of thee—
I'm thinking of thee now.

I'm thinking of the days, mother,
When, with such earnest pride,
You watched the dawnings of my youth,
And prospered me to your side
Then love had filled my trusting heart
With hopes of future joy,
And thy bright fancy honors wove
To deck thy darling boy

I'm thinking on the day mother,
I left thy watchful care,
When thy fond heart with hope filled
To Heaven—thy trust was there
And memory brings thy parting words
When tears fell o'er thy cheek,
But thy last loving, anxious look,
Told more than words could speak

I'm far away from thee, mother
No friend is near me now,
To soothe me with a tender word,
Nor cool my burning brow,
The dearest ties affection wove
Are all now torn from me,
They left me when the trouble came—
They did not love like thee

I would not have thee know mother,
How brightest hopes decay—
The tempter, with his baneful cup,
Has dashed them all away,
And shame has left its venomed sting,
To rack with anguish wild'
'Twould grieve thy tender heart to know
The sorrows of thy child

I'm lonely and forsaken now
Unpitied and unblest,
Yet at it, I would not have thee know
How sorely I'm distressed,
I know thou wouldst not chide, mother,
Thou wouldst not give me pain,
But cheer me with thy softest words,
And bid me hope again

I know thy tender heart, mother,
Still beats as warm for me,
As when I left thee, long ago,
To cross the broad blue sea,—
And I love thee just the same, mother,
And I long to hear thee speak,
And feel again thy balmy breath
Upon my care worn cheek.

But ah! there is a thought, mother,
Pervades my beating br ast—
That thy fond spirit may have flown
To its eternal rest
And, as I wipe the tear away,
There whispers in mine ear
A voice, that speaks of Heaven and thee,
And bids me seek thee there

DR. UPHAM'S
Vegetable Internal Remedy
FOR THE PILES!
A Cure for Life Secured.

For the cure of Piles Inflammation of the Liver and Spleen Inflammation, Sores and Ulceration of the Stomach, Bowels Kidneys and Bladder, Female Weakness and Mercurial Rheumatism Impurity of Blood, Weakness and Inflammation of the Spine and for the comfort of Married Ladies

THE VEGETABLE PILE ELECTUARY invented by Dr A. Upham, a distinguished physician of New York city, is the only really successful remedy for that dangerous and distressing complaint the Piles, ever offered to the American public.

Mark this it is an INTERNAL REMEDY—not an external application and will cure any case of Piles, either Bleeding or Blind, Internal or External and probably the only thing that will. Here is no mistake about it. It is a positive cure, speedy and permanent. It is also a convenient medicine to take and improves the general health on a remarkable manner.

Each box contains twelve doses at $1 a box or dose. It is very mild in its operation and may be taken in cases of the most acute inflammation without danger. All external applications are painful and dangerous, inconvenient, and offensive, and from the very nature of the disease, temporary in their effects. This Medicine attacks the disease at the seat of the evil and removing the cause renders the cure certain and permanent.

INFLAMMATORY DISEASES—Although the Electuary was originally prepared for the cure of Piles, yet it has proved itself to be a medicine far superior to all others, in all diseases of an Inflammatory character with a determination of all or any particular part or organ. In Inflammation and Congestion of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach, Bowels, Kidneys and Bladder, and in Mercurial Rheumatism, it is the best Medicine ever discovered.

IMPURITIES OF THE BLOOD—For all impurities of the blood arising from the injudicious use of mercury, or other causes, for all Diseases of the Skin and Scrofulous Affections, in all cases where the blood is powerfully determined to the Head inducing pain and distress, Dr Upham's Electuary is entirely unrivaled.

TO MARRIED LADIES—Married Ladies are almost invariably subject to painful and injurious disease, the PILES, with no frequent inflammation of the bowels and spine, weak back, flow of blood to the head &c. The Electuary is perfectly safe for Pregnant Ladies, and the most useful Cathartic that can possibly be used during pregnancy to remove the Piles in all inflammatory diseases, *without pain or any return*, but will ensure a easy time in safe delivery and a healthy constitution to the offspring.

CURE FOR THE PILES GUARANTIED—The Electuary contains no mercury, no Aloes, Colocynth Gamboge, or other powerful or irritating Purgatives. No fear of taking cold while under its influence, no change in diet is necessary. It is a mild cooling to the constitution. *A cure for Life is Guaranteed.*

Another New Thing in Penobscot.
The Trojan Pioneer Cooking Stove.

THE subscribers after great expenditure have succeeded in bringing this admirable Cooking Apparatus to perfection, and are now prepared to furnish the public with the very best article ever invented. This Stove has had three of the highest premiums awarded to it that were ever awarded to a Cooking Stove, at the Fair of the American Institute in the City of New York a Silver Medal was awarded, at the great State Fair at Poughkeepsie, N. Y. 1844, where was the greatest competition ever known, the first premium was awarded to it and lastly, at the Exhibition and Fair in Boston a Silver Medal was awarded to it. This celebrated Stove stands unrivalled in Boston New York and other places where it is in extensive use, 1800 of them were retailed by one establishment in Boston the past year, for all cooking and heating purposes it far surpasses any other Cooking Apparatus that can be produced. The oven is extremely large, being of sufficient capacity to admit six large pie plates or six large loaves of Bread, or even the largest pudding or bean pots in use at the same time. In addition to the advantages it has over other Stoves for boiling, baking washing frying heating irons, &c, it is acknowledged by all who use them that they have the best arrangement for Baking and Roasting that has ever been in use, the steam (from all the cooking) being carried off effectually. This Stove being composed of two parts can be disconnected in one moment's time, so as to make two perfect Stoves which is of great value in warm weather as the summer stove which makes a handsome parlor stove may be used in the setting or dining room—and the other part in the back kitchen for Boiling or Washing; and in the fall of the year the two parts may be connected together as is represented above. In fact it is impossible to tell one half of the story about this Stove, and all who feel interested to get a first rate Cooking Apparatus are respectfully requested to call at our Store and examine the above where will be found a first rate assortment of Cook Stoves Ranges, Hot Air Furnaces and Fixtures, Tin Ware, Sheet Lead, Pumps Lead Pipe, Fire Frames, &c

THE well established and well earned reputation of WRIGHT'S INDIAN VEGETABLE PILLS, as a Sovereign Antidote, and cure in cases of Fevers, Head Aches, Indigestion, Dyspepsia Dysentery Colic Female Complaints, &c &c has excited the cupidity and envy of the proprietors of other medicines, and since their admirable qualities cannot be impugned, has arrayed against them the unsparing efforts of men who seek to pass off their medicines by the reputation of Wright's Indian Vegetable Pills

Beware of all attempts to palm off any (so called) specifics by means of specious sounding and deceptive titles "SUGAR COATED PILLS" may be pleasant to the palate, but it requires something more than a agreeable exterior to commend them to our notice. We shall not attempt to analyze the composition of the "sugar coated or pretended improved Indian Vegetable Pills," which have been thrown into the market and advertised extensively in the country papers—we have no desire to do so—nor is it necessary. It is, however, our duty to assure the public emphatically, that they are not an improvement on WRIGHT'S Indian Vegetable Pills and that whoever purchases them under this supposition is wofully deceived. This caution is positively necessary, since the title nearly the qualities set forth the composition of ingredients, &c are all those which formed the distinctive and original character of the medicine.

Remember, buy none but WRIGHT'S Indian Vegetable Pills, which are protected by a patent. These have attained an almost incredible sale and circulation of their own, altogether to the exclusion of every other medicine. The public will pass its own judgment upon any attempt to snatch the Laurel from the brow of the inventor of these medicines where it has been placed by grateful thousands in whom owe it to the enjoyment of the blessings of health to have had such a beneficent agency.

Wright's Indian Vegetable Pills

have performed wonders when used in cases of Intermittent, Remittent, Nervous, Inflammatory and Putrid Fevers, Measles Small Pox and Erysipelas Inflammation, of the Bowels Dysentery, stomach, lungs, liver, intestines, kidneys and bladder, pain in the stomach, back and side, consumption, dropsy of the head of the chest, of the abdomen and of the limbs, scrofula, scurvy and syphilis, costiveness, gravel, loss of appetite, sick headache, rheumatism, hot acute and chronic spitting of blood, diarrhea, dysentery and colics, syncope, apoplexy and paralysis, dyspepsia, hypochondriasis, epilepsy, hooping cough, palpitation of the heart, ulcers and sores of every description, hysterics, weak nerves, and low spirits, suppression and other follies in Female Complaints.

No other medicines ever discovered has gained those horrid forms of disease with such general success. They have thus powerfully THE EMPLOYMENT OF NATURAL MEANS TO COUNTERACT THE EVILS OF NATURE. The bowels of the sick have not been ransacked for poisonous minerals to feed the system under the pretence of curing disease. The Field and the Forest alone have been searched for materials for the healing art. From these have been collected remedies with the various forms of disease and expelling their contents provided by the author of our being—the Lungs, the Skin the Bowels and the Blood. Hence Wright's Indian Vegetable Pills based upon the curative modes suggested by nature, are Salutary Diuretic Expectorant and Purgative.

The ORIGIN of this invaluable medicine entitles it to unlimited confidence and respect. The nearer we approach to nature, in our researches after truth both in science and art, the more complete will be our success in both. Look at the uniform physical condition of the Indian Tribes of this continent whether exposed to the frosts and storms of the North or to the rain heat, and pestilential miasma of Southern climate. Houseless unprotected exposed to every atmospheric change every extreme of the seasons dwelling at times in morasses and by the margins of unhealthy pools and swamp—they yet enjoy an almost total immunity from disease, while the white man who enjoys all the comforts of civilization with its attendant arts is as much inferior to the savage in physical vigor as he is superior to him in intellectual acquisitions—How does this happen? Simply because he heeds not the light of science, he relies upon that divine instinct which impels him to select from the produce of the field and forest those remedies which Nature and Nature's God has bountifully provided for the solace of suffering and the mitigation and cure of disease—sowing them broadcast on every hill and valley. Let those who impiously arraign the good justice of Divine Providence, and point with a sneer to the multitude of unhealthy who lie groaning upon beds of sickness, turn from the false lights of man and study the secrets of nature and they will adore the mercies which has so bountifully provided cures for every wound—*a remedy for all chronic ills.*

Disease rarely assumes one form from an inscrutable cause—hence the absurdity of attempting by one compounded medicine. But Wright's Indian Vegetable Pills combining remedies for every form of disease, are successfully applied in all the Indian Tribes, in their primitive state, and are now in use in all parts of the Union, and are rapidly displacing all other medicines. The following extract taken according to Dr Dwight's compilation. They may be freely received in the best families, as nothing in them deserves disgust. They have effected wonderful cures. They are in fact the only medicine that can be used in the most delicate cases. Their virtues are truly wonderful and unrivalled by any other medicine. They should suffer from no spurious pill puffed off by the help of titles given to them, but of the genuine Pills. There is worth more caution the public against purchasing any but the

GENUINE
"WRIGHT'S INDIAN VEGETABLE PILLS."

These Pills as we before remarked operate by purgation—by thoroughly cleansing the entire system from all impurities, and making the invalid in the homely but expressive phrase a new man. whether the disease is INCIPIENT CONSUMPTION which insidiously attacks the Lungs producing that dry, hacking cough so painful to the friends ear, or Cutaneous, showing itself upon the skin in eruptions or blotches, whether the Kidneys or the Bowels be affected—*Wright's Indian Vegetable Pills* are equally efficacious in warding off danger. Their expectorant cathartic, sudorific and diuretic qualities enable them to take hold of each form of disease.

The *perfect safety* of the medicine is another all important quality and one which has contributed more than any thing else to its extension and popularity.

In a word, this medicine commends itself strongly to the patronage of the public, and its use bids fair to become, before long ALMOST UNIVERSAL.

CONSUMPTION CURED!

BUCHAN'S HUNGARIAN BALSAM OF LIFE.

THE

GREAT ENGLISH REMEDY
For Colds, Coughs, Asthma, and other Diseases of the CHEST and LUNGS.

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Coughs and Pulmonary diseases, still stands unrivalled and unsurpassed in the mildest, most agreeable, and effectual curative of these formidable complaints, now known to the civilized world.

Three years of trial in the United States, during which time it has been distributed from Maine to Florida, has only served to extend its pre eminent merit in all parts of the country as the great and

ONLY RELIABLE REMEDY

in the worst cases of Pulmonary disease, and the best and surest preventive of all the slight forms of colds, cough and inflammation, that can possibly be used.

SPITTING OF BLOOD—This frightful symptom of approaching consumption is speedily checked and prevented by the use of Buchan's Hungarian Balsam which heals the affected membrane, removes the incipient tubercles, and restores those vital organs, the lungs to sound and healthy condition.

REMEMBER THIS—Spitting of Blood always arises from a tendency to Tuberculous disease, and if not checked, at the outset, will sooner or later determine in death. A person who raises blood once will raise blood again, unless a proper curative is immediately applied.

PAIN IN THE SIDE—This distressing symptom of Consumption arises from inflammation of the Lungs, or the Membrane called the Pleura, or from Bronchial affection of the air passages. In either case it is a very dangerous infection of disease. It prevents full and free breathing, and wears away the vital strength of the system. The cause of this symptom should be removed at once, and nothing can possibly effect this object so speedily and happily as the Great English Remedy, discovered by Dr Buchan which is entirely vegetable in its ingredients, and perfectly harmless to all ages and conditions.

LIVER COMPLAINT—In cases of Consumption the Liver is always more or less affected, or Inactive Spleen, Hiccoughs, small fever, &c. In these cases Consumptive patients, tubercles results found in these organs particularly upon the Liver, which also becomes fatty, fatty and diseased. The effect of the Hungarian Balsam in diseases of the Liver, especially of a tubercular nature is direct and powerful.

Simple disease of the Liver, unattended by Consumption is speedily cured by its use.

RIVER COUGH—The harsh, dry, hacking cough so prevalent *affects old people* and invalids in a low state of health is happily alleviated by the *Hungarian Balsam.*

It warms moistens and softens the whole breast, the upper lobes, removes the mucous and other secretions, promotes a healthy circulation of the blood, and by its use the Liver, Spleen, Kidneys, Bowels and the Lungs are restored to a healthy state.

BRONCHITIS—Bronchial Difficulties of Breathing Hoarseness Cough, Expectoration, with all other symptoms of the disease, are speedily relieved and effectually cured by the use of the Hungarian Balsam, prepared by *Dr Buchan.*

This is a very painful, wearing and numerous complaint and always has a powerful tendency to inflame and soften the Lungs and thereby to induce the worst form of Pulmonary disease. Be warned in time, be relieved and employ this natural remedy.

TUBERCLES ON THE LUNGS—The Hungarian Balsam is the only popular remedy which has any power to dissolve, remove, and cure Tubercles on the Lungs. Incredible as this is generally deemed, we have the most abundant and conclusive evidence to sustain the assertion that such is its direct and immediate effect in all cases where there is no natural organic defect. In fact, so confident is the American Agent of its power to cure the worst form of this disease that he prefers (as he has frequently stated) that it should be used by those who have reached *PRONOUNCED INCURABLE* by the most eminent physicians rather than by persons affected with some slighter form of disease—in order that its triumphs might be more apparent. He boldly declares that it will cure Tuberculous disease and confidently submits a trial on the *worst of cases.*

EXPECTORATION—Free Expectoration is the most important object to be attained in all attempts to cure diseases of the Chest and Lungs. The Cough which is so distressing is simply the result of a desire to expectorate, and as long as foul matter exists in the air passages it will continue to irritate the membrane and provoke a cough. Coughing is an attempt to throw off this matter and expectoration gives great relief. Inability to expectorate is the latter stages of Consumption is the cause of death.

The Hungarian Balsam is a *great Expectorant*—It dissolves the morbid and diseased matter in the air passage changes it from a thick glutinous substance to a thin harmless fluid, and throws it off with the greatest possible ease and comfort to the patient. There is no better remedy in the world, if its expectorant quality alone be considered.

SPASMODIC ASTHMA—Simple or Spasmodic Asthma has no better remedy than the Hungarian Balsam. This painful and destructive affection which resists almost every thing else, yields to the all powerful influence of this great remedy as readily as any other form of Pectoral disease.

CONSUMPTION!—Consumption has been graphically described as a *Shrinking of one's self.* The Hungarian Balsam by its cleansing warming softening and animating power, produces not shrinking but *expansion!*

Before its delightful influence, all chills, fever night sweats costiveness, blueness of the nails a hot flushed skin an uncertain strength, emaciation and decline—disappear, like the poisonous dews of night before the glorious morning sun! This is no delusion, but demonstrable fact, sustained by incontestible proof from all parts of the country.

BE WISE TO DAY!—Delay in any case of Consumptive tendency, is emphatically Death under all ordinary treatment. The Hungarian Balsam is a great ANTIDOTE, as well as CURATIVE. If you have any symptoms above described, be advised in time.

Sold in large bottles at only one dollar per bottle.
